

Beegle-Levin Strategies

BUSINESS INCORPORATION

Includes total incorporation of your business in the state of your choosing, including all incorporation fees for which the costs are invoiced at without markup.

Often, states require articles of incorporation, a brief business plan, and company leadership roles and responsibilities. I will help you plan and create all of these items to ensure you are set up for success and are in compliance with the law.

OBJECTIVES

Having a solid business plan is key to have prior to business incorporation. Without a business plan, you will be unable to apply for most business loans/credit cards. Plus, by having a plan you maintain credibility by staying focused on keeping yourself disciplined in following the plan as a guideline to meet your business goals and objectives.

- Ensure a solid business plan is created
- Develop clear roles and responsibilities for organization leadership
- Incorporate as a business in the state of your choice, as the entity of your choice

TIMELINE OF THE PROJECT

- Week One -Free Initial Consultation
- Week Two - Discussion and strategy for your business plan, leadership roles, and preferred entity type
- Week Three - Drafts shared for review
- Week Four - Finalized documents and your business is incorporated!
